Teaching series; 'God Doesn't Make Sense'.

The clarity on the identity of God is our greatest priority. How we see God affects our worldview, how we respond to circumstances in life, and how we relate to one another. In 2024, where god is the self, it is crucial that Christians are getting an accurate view of God.. God does not think the way we do.

Even though we may not fully understand the ways of God, it is important to have faith and trust in God's sovereignty. The purpose of the series is to encourage believers and strengthen the foundation of their relationship with God.

Each session we will look at two attributes of God, that to us, can look like they're in conflict, but they are made perfectly harmonious in God.
